

Brontictuzumab Biosimilar - Research Grade

Product Code: ICH5416

More Information

Species Reactivity: Human

Target: NOTCH1

Concentration: 5mg/ml

Isotype: IgG2 - lambda

Host: CHO Cells

product name H2: Brontictuzumab Biosimilar - Research Grade

Sequence: <https://www.imgt.org/mAb-DB/>

Buffer: ICH3002

UniProt: P46531

Shipping Conditions: Blue ice

background: NOTCH1 is a transmembrane receptor that governs cell-fate decisions, differentiation and angiogenesis, and its signaling is widely interrogated in developmental and cancer research. This reagent is an unconjugated, non-therapeutic analog of brontictuzumab, a human IgG2-lambda recombinant antibody supplied for research use only. It is an ultra-pure, low-endotoxin preparation meeting in vivo standards and produced in scalable milligram-to-gram quantities for high-throughput laboratories. It fits functional and receptor-blockade assays, Notch-signaling studies, in vitro screening and preclinical tumor models examining NOTCH1 activity, with consistent lot-to-lot behavior. Manufactured in scalable milligram-to-gram quantities with low endotoxin, it delivers the lot-to-lot reproducibility that heavy-usage laboratories rely on.

Purification Method: This monoclonal antibody was purified using Protein A

Formulation: Sterile, preservative-free, solution in PBS. BSA and Azide free.

Purity: >90% by SDS-PAGE

Endotoxin: ≤ 1.0 EU/mg as determined by the LAL method

Storage: This biosimilar is stable when stored at 2-8°C. For longer term storage (> 3 months) it is recommended to store this antibody at -20°C or -70°C.

Applications: Functional Assays

Application Notes: This biosimilar is for research use only (RUO): it is not for diagnostic or therapeutic procedures and cannot be purchased by patients.

Use: Products are for research use only. Not for use in diagnostic or therapeutic procedures.

Delivery Time: 3-4 weeks
