

# Suvratoxumab Biosimilar - Research Grade

**Product Code:** ICH5891

**More Information**

**Species Reactivity:** Human

**Target:** alpha toxin

**Concentration:** 5mg/ml

**Isotype:** IgG1 - kappa

**Host:** CHO Cells

**product name H2:** Suvratoxumab Biosimilar - Research Grade

**Sequence:** <https://www.imgt.org/mAb-DB/>

**Buffer:** ICH3002

**Shipping Conditions:** Blue ice

**background:** Staphylococcus aureus alpha toxin is a pore-forming cytolysin and a key virulence factor targeted in anti-infective research. The product here is a non-therapeutic, unconjugated analog of suvratoxumab, a recombinant anti-alpha-toxin monoclonal antibody for research use only. It is manufactured to in vivo standards with low endotoxin and made in scalable milligram to gram quantities for bulk and high-throughput study. Applications include toxin-neutralization functional assays, in vitro hemolysis-inhibition screens, and in vivo models of staphylococcal infection. Its scalable supply and batch consistency suit programs that require uniform reagent across many studies. Lot-to-lot reproducibility and ample availability make it well suited to extended, high-volume research efforts.

**Purification Method:** This monoclonal antibody was purified using Protein A

**Formulation:** Sterile, preservative-free, solution in PBS. BSA and Azide free.

**Purity:** >90% by SDS-PAGE

**Endotoxin:**  $\leq 1.0$  EU/mg as determined by the LAL method

**Storage:** This biosimilar is stable when stored at 2-8°C. For longer term storage (> 3 months) it is recommended to store this antibody at -20°C or -70°C.

**Applications:** Functional Assays

**Application Notes:** This biosimilar is for research use only (RUO): it is not for diagnostic or therapeutic procedures and cannot be purchased by patients.

**Use:** Products are for research use only. Not for use in diagnostic or therapeutic procedures.

**Delivery Time:** 3-4 weeks
