

Universal Recombinant Mouse IgG Antibody Mix

Product Code: ICH3009

More Information

Target: Hen Egg Lysozyme

Isotype: Mouse IgG1, IgG2a, IgG2b, and IgG3 kappa

product name H2: Universal Recombinant Mouse IgG Antibody Mix

Aggregation: 1 EU per 1 mg of the protein by the LAL method.

Antigen Distribution: The recombinant mouse IgG antibodies were affinity-purified from supernatant of mammalian cells cultured in a chemically defined medium by affinity-chromatography using protein A and G.

Sequence: Blue ice

Buffer: ICH3002

UniProt: Alternative of Serum-derived Mouse IgGs

Shipping Conditions: Yes

Other names: Recombinant Mouse IgG Blocking Solution

clone: HyHEL-10

Specificity: No Human, Mouse, or Rat Antigens

Purification Method: HEL

Purity: 0.2 uM filtered solution, pH 7.4, no stabilizers or preservatives.

Endotoxin: >95% by SDS-PAGE under reducing conditions and HPLC.

Applications: Stable for at least one week when stored sterile at 2-8°C. For long term storage aseptically aliquot in working volumes without diluting and store at -20°C or -80°C. Avoid Repeated Freeze Thaw Cycles.

Application Notes: ELISA, flow cytometry, immunoblotting, immunoprecipitation, immunocytochemistry, immunofluorescence, and isotype controls.
