

Vunakizumab Biosimilar - Research Grade

Product Code: ICH5995

More Information

Species Reactivity: Human

Target: IL17A α 1/2

Concentration: 5mg/ml

Isotype: IgG1 - kappa

Host: CHO Cells

product name H2: Vunakizumab Biosimilar - Research Grade

Sequence: <https://www.imgt.org/mAb-DB/>

Buffer: ICH3002

UniProt: Q16552

Shipping Conditions: Blue ice

background: Interleukin-17A (IL17A) is a key effector cytokine in inflammation and autoimmunity, driving conditions such as psoriasis and a major focus of immunology research. Provided as an unconjugated, non-therapeutic analog of vunakizumab, this recombinant human IgG1 antibody targets IL17A and is supplied for research use only (RUO). It is formulated to a low-endotoxin specification suitable for in vivo studies and manufactured in scalable milligram to gram quantities for high-throughput and heavy-usage laboratories. Researchers use it in cytokine-neutralization assays, in vitro IL-17 signaling screens, control applications, and preclinical inflammation and autoimmunity models.

Purification Method: This monoclonal antibody was purified using Protein A

Formulation: Sterile, preservative-free, solution in PBS. BSA and Azide free.

2026

Purity: >90% by SDS-PAGE

Endotoxin: ≤ 1.0 EU/mg as determined by the LAL method

Storage: This biosimilar is stable when stored at 2-8°C. For longer term storage (> 3 months) it is recommended to store this antibody at -20°C or -70°C.

Applications: Functional Assays

Application Notes: This biosimilar is for research use only (RUO): it is not for diagnostic or therapeutic procedures and cannot be purchased by patients.

Use: Products are for research use only. Not for use in diagnostic or therapeutic procedures.

Delivery Time: 3-4 weeks
