

Zovostotug Biosimilar - Research Grade

Product Code: ICH6011

More Information

Species Reactivity: Human

Target: CD163

Concentration: 5mg/ml

Isotype: IgG1 - kappa

Host: CHO Cells

product name H2: Zovostotug Biosimilar - Research Grade

Sequence: <https://www.imgt.org/mAb-DB/>

Buffer: ICH3002

UniProt: Q86VB7;Q86VB7;Q2VLH6

Shipping Conditions: Blue ice

background: CD163 is a scavenger receptor marking anti-inflammatory and tumor-associated macrophages, making it an informative target in immunology and immunoncology research. Offered as an unconjugated, non-therapeutic analog of zovostotug, this recombinant human IgG1 antibody binds CD163 and is supplied for research use only (RUO). It is purified to a low-endotoxin standard suitable for in vivo studies and produced in scalable milligram to gram quantities for high-throughput and heavy-usage laboratories. Researchers use it in macrophage-binding and phenotyping assays, in vitro functional screening, control work, and preclinical models of tumor-associated macrophage biology.

Other names: M130, MM130, SCAR11

Purification Method: This monoclonal antibody was purified using Protein A

Formulation: Sterile, preservative-free, solution in PBS. BSA and Azide free.

Purity: >90% by SDS-PAGE

Endotoxin: ≤ 1.0 EU/mg as determined by the LAL method

Storage: This biosimilar is stable when stored at 2-8°C. For longer term storage (> 3 months) it is recommended to store this antibody at -20°C or -70°C.

Applications: Functional Assays

Application Notes: This biosimilar is for research use only (RUO): it is not for diagnostic or therapeutic procedures and cannot be purchased by patients.

Use: Products are for research use only. Not for use in diagnostic or therapeutic procedures.

Delivery Time: 3-4 weeks
