Product Benefits:

ichorbio's Mouse IgG2b Isotype Control for In Vivo - Low Endotoxin (MPC-11) is manufactured in an cGMP compliant, ISO Quality Standard 9001:2015 facility. ichorbio's low endotoxin antibodies have half the endotoxin of comparable antibodies from our [competitors](#) at less than 1.0 EU/mg. If ichorbio's low endotoxin antibodies are not low enough we also offer ultra low endotoxin antibodies which have even less endotoxin [<0.75 EU/mg] at an even higher purity [98% versus 95%]. ichorbio: the best antibodies for *in vivo* research.
